3. Public employment services

Canary Islands Employment Service (SCE)

Registering as a jobseeker is free and gives you access to job offers, guidance and many courses, because quite a few free training courses require you to be registered.

- [Website of the Canary Islands Employment Service](#)
- [How to register as a jobseeker](#)
- [Job applications and offers](#)
- [SCE job search](#), which you can filter by island and municipality
- [SCE apps](#) for Android ([direct download](#)): appointments, your registration and job offers from your phone
- [Create your CV with the SCE](#)
- [Working in Europe \(EURES\) at the SCE](#)
- [Career guidance](#)

We also explain it in our guide [Looking for work in the Canary Islands?](#).

Some tips so that the SCE takes you into account when job offers come in:

- **Book an appointment** through the online office, the SCE app or by calling 012 (928 301 012).
- **Choose your occupations carefully.** You can list up to 6. The SCE looks for candidates through them, so they must match what you can do.
- **Extend your search area to the whole island of Gran Canaria** if you can travel. You ask for this at your employment office.
- **Keep your registration up to date** and hand in the certificates of the courses you take.
- **Ask for the employment plans and the PFAE.** The SCE's agreements with town councils and organisations often hire people for cleaning, labouring, gardening or maintenance. PFAE (training programmes combined with employment) last about 11 or 12 months: you work with a contract while you train, and at the end you get a professional certificate. Both applications are valid for one year; after that you have to apply again.
- **Apply for the «Servicios para el Empleo»** if they apply to you, always **before** you are hired, because they give support to the company that hires you: Certificate (if you have a professional certificate), Retorno al Empleo (if you have been registered for 12 months or more) and Incentivate (aged 16 to 29, with Youth Guarantee). You apply on the [SCE website](#).

Youth Guarantee (if you are under 30)

If you are between 16 and 29 and not working or studying, you can register for the Youth Guarantee (Garantía Juvenil) to access job offers, internships and training. Information on the [SEPE website](#) and at [Gran Canaria Joven](#), from the island council (Cabildo). Other resources for young people:

- [Activa Joven Canarias](#), the SCE's site for young people.
- [Talento Joven](#) from the Chamber of Commerce, with guidance and training for young people.

The other town councils publish their calls on their online offices and in the BOP.

An important point: to be a civil servant (funcionario/a), in most cases you need Spanish nationality or that of a European Union country. But foreign nationals legally resident in Spain can apply for **contract staff** (personal laboral) positions in public administrations on equal terms with Spanish nationals. This is set out in article 57 of the Basic Statute of Public Employees.

14. Our job board and our groups

At Ubuntu Canarias we collect job offers in Gran Canaria every week and publish them by sector, in five languages, on our [weekly job board](#). Every day we also share job offers, free courses and resources in our WhatsApp group, and on [Free training](#) we gather courses with open registration.

15. How to spot a fake job offer

Fake job offers also circulate online. Some are after your money and others after your personal data. Be suspicious if:

- **They ask you for money** to work: for a course, materials, a uniform or «administration fees». A real company does not charge you to hire you.
- **They hire you without an interview** or offer you a job you had not applied for.
- **The salary is very high** for an easy job, with no experience and from home.
- **They ask you to call numbers starting with 803, 806, 807, 905 or 907**, which are premium-rate.
- **You can't find the company online** or they write to you from a free email address such as Gmail on behalf of a large company.
- **They ask for your bank details** or photos of your ID before you have signed anything.
- **The offer doesn't give the company's name or the municipality** and only gives a number to message «privately».

If an offer looks suspicious, don't send money or data, search online for the company's name and a few phrases from the ad, and warn the page where you saw it. Spain's National Cybersecurity Institute (INCIBE) explains more warning signs on its page about [fake job offers](#).

And before accepting any job, go through our list of [10 things to check before you say yes](#). If you are already working without a contract, read [what you can do](#).

16. A final tip

Looking for work online works better with a bit of order. Choose a few websites, check them several times a week and write down which offers you apply for and when. For that you have our guide [Organise your job search](#), with a template to download.

This guide will be updated with new information. Check it again on ubuntucanarias.org from time to time and download the latest version.
